

Homepage Design

Phase one

Masthead

We are looking for a redesign of the look of our homepage, utilizing the new logo and incorporating compatible colors, background, fonts.

This redesign would extend to the basic link pages found on the left hand side in the red boxes, with the exception of the Youth and Teen pages. A sampling of these pages is attached.

The youth and teen departments are presently working with Kathy Petlewski, our Electronic Resources Librarian, to create pages that reflect the distinct needs and wants of their specific patron groups. These pages are attached as well.

We request that once a final redesign has been selected, that we be provided with a template for the pages, in tif and jpeg formats. Additionally we will need Hex numbers for all selected colors.

Phases two and three

Over time we would like to re-evaluate the working structure of our homepage. During the next six months we will be looking at other library websites for ideas in this area and how we might improve plymouthlibrary.org. We are looking for guidance on the least disruptive plan to accomplish this. We don't want our patrons logging on some day and facing a completely unfamiliar site.

We would welcome your thoughts on such aspects of this project as:

- work flow
- timing
- process
- budget
- transition
